

WRITING

In Year 6, we love taking inspiration from beautiful books to aid us in our writing.

We are looking at Suffragette by David Roberts and writing a range of formal pieces. We will attempt formal letters, speeches, diary entries, balanced arguments, newspaper reports and even an essay question. Later on, we will be learning about tenses and recapping the grammar, punctuation and spelling learnt earlier in the year.

MATHS

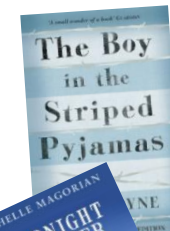

This term will be dedicated to recapping key areas of our Maths learning from earlier in the year. This is likely to include division, fractions, decimals and percentages.

Sycamore and Chestnut Classes

YEAR 6

SUMMER TERM

Curriculum Overview

READING

Both of our class reader books, this term, are set in WW2 giving us the opportunity to make comparisons within a genre. We will read *The Boy in the Striped Pyjamas* by John Boyne and *Goodnight Mister Tom* by Michelle Magorian.

We will develop our comprehension skills with particular focus on author writing style, language choices and themes.

SCIENCE

This term will begin with our topic of Living Things and their Habitats. Within this, we will learn about classification (including the Linnaean System), characteristics and microorganisms.

RE

As previously, this term, we will continue to follow the Come and See syllabus for RE. We will deepen our understanding of scripture and faith, with a particular focus on witnesses within the Bible. In addition to this, we will spend some time exploring the Islamic faith.

HISTORY

For the first half of this term, we will be studying a brand-new topic of Fight for the Right. Within this, we will explore the British Suffragette and American Civil Rights movements, as well as taking a look back through black British History. All of our learning will have a chronology focus, but we will also be completing a local history study into Emily Davison and her link to Epsom Downs. We will take inspiration from significant individuals and examine their impact on our world today.

PE

During the warmer summer months, we will be spending as much time outside as possible for our PE lessons. The first half of the term will be focused on games before we later move on to athletics.

COMPUTING

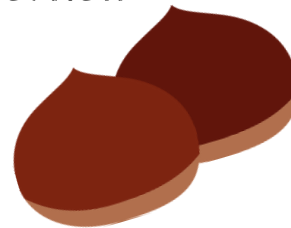

We will begin by learning about how to use different software to accomplish a range of goals. We will also revisit important areas of online safety, focusing on how to keep ourselves safe as we become increasingly independent.

Sycamore and Chestnut Classes

YEAR 6

SUMMER TERM

Curriculum Overview

PSHCE

As we near the end of the term, our focus will be on transition to secondary school. We will work through our Moving On topic, ensuring that we are fully prepared for all that September will bring.

ART AND DT

Our artist focus to begin with is William Morris and we will be using his work to create a range of prints. We will make a printing tile, before roll-printing using a range of mediums.
